RE: Faith Lutheran School Closure Update

Faith Families,

A tremendous amount of information has been shared the last several days regarding relief legislation from the federal government. The Faith school board is studying this information to learn how these resources will allow us to best work with and move through this difficult time with you, our Faith families.

We have developed a timeline to ensure both due diligence of this research and the quickest action possible. On Friday, April 3, I will send an update sharing what we have learned and any definite plans the Faith leadership has made. The overall goal of the school board is to communicate a comprehensive plan for the immediate future as well as the sustainable future of Faith Lutheran School.

We continue to pray for you, our students and families, as well as for our staff and faculty. Not only have you all continued the learning process together, you have modeled care and compassion as you have done so. Thank you for trusting one another to move forward together as a shining example to the greater community.

We ask that you continue to pray with and for our Faith community, our city, our state, our country and our world; that God would heal those who are sick, provide strength and safety to caregivers, comfort to the grieving and peace, as only He can, to the dying. May He grant us His guidance and wisdom in the decisions before us; and may those decisions shine His light through us to this hurting world.

Craig C. Neumiller
